The **CLASSIC** Range

Peace of mind at home, even on rainy days thanks to the anti-flooding barrier

Heavy downpours which flood entire areas in a very short space of time are increasingly frequent and even just a few centimetres of flooding can cause thousands of euros of damage.

Acquastop Classic is a simple and functional system which **protects against flooding,** a fully mobile barrier ready to be applied **whenever needed, by anyone** in just a few seconds.

Whether you stay or leave the home, Acquastop Classic is the anti-flooding system which will give you peace of mind in the event of prolonged flooding.

SHOP WINDOWS, ENTRANCES TO RETAIL
AND INDUSTRIAL PREMISES.

ANTI-FLOODING BARRIER

Made to measure

The **CLASSIC** Range

MADE TO MEASURE

Acquastop Classic anti-flooding barriers are made to measure for your door, gate or other openings and entrances.

High-performance Acquastop systems are the culmination of over twenty-five years of experience and tireless research into improvement. This is why only Acquastop comes with a five-year warranty for its Classic model.

FOR DOORS, GATES, SHOPS, GARAGES, SHOP WINDOWS, ENTRANCES TO RETAIL AND INDUSTRIAL PREMISES.

SIMPLE AND QUICK TO APPLY

Thanks to the patented system **EasyStop**

The exclusive EasyStop system enables rapid and correct anti-flooding barrier installation. The special rotation and securing system enables barrier extension and seal compression, guaranteeing hold against water. The barrier can be installed by anyone, removed just as simply and stored, ready for use.

THE ONLY ONE WHICH DOES NOT REQUIRE BUILDING WORK OR FITTED GUIDES.

Acquastop Classic does not require the installation of fitted guides, profiles, fixing holes, columns or building work as it fits directly onto the existing wall, against the opening.

EXCELLENT HOLD

Safe protection for premises

Thanks to its construction concept and seal compression system, the anti-flooding barrier Classic guarantees excellent hold against flooding.
